

24-Hour Nursing Care

Our highly qualified and experienced team of registered nurses and care practitioners provide round the clock nursing care. We provide residential, respite and day care services for adults of all ages who require professional nursing care.

Bryn Bella and Highfield are both also ideal for those who require a period of convalescence or a short break in a supported caring environment. We promote independence and have an emphasis on rehabilitation.

We also have our own physiotherapy department with a team of chartered physiotherapists and physiotherapy assistants.

Through person-centred care planning we tailor our care to enhance and fulfil an individual's quality of life, within friendly, clean, safe, comfortable and attractive surroundings.

The spacious rooms and suites are designed to the highest possible standards. The tranquil setting and easily accessible landscaped gardens are surrounded by open countryside and close to Wrexham town centre and all its amenities.

Our resident artist promotes and encourages rehabilitation using art as a therapy. Her classes and one-to-one sessions are extremely popular. Other therapies, including music, laughter, pet and colour, are also popular.

There is a friendly family-feel and a whole host of activities including music, concerts and themed food evenings, regular outings to the shops, cinemas, pubs and local beauty spots.
